icon-wide-coral.svg	Icon only, accent usage
appicon-medium-coral.svg	512x512 app icon template
appicon-wide-coral.svg	512x512 app icon template

## Recommendation

**For icon/favicon, I recommend: Medium**

The Medium version has slightly more visual weight and holds its shape better at small sizes. The Wide version works great for the full logo but can feel a bit thin as a standalone icon.
